Herogra Fertilizantes is a “fertilizer’s formulator”, with the widest and most novel gamut of products in Spain; nowadays, we are the point of reference in our industry.

Almost a century after our foundation, with the help of the greatest professionals, the support and collaboration of public authorities and European policies, and of course, thanks to technological development, we have achieved our objective.

Herogra involves an own and particular philosophy, a constant service, a high quality and a continuous adaptation to the requirements of a changing world. In addition, we have developed a cutting-edge technology, with completely automatic systems.

What we will introduce you subsequently, it is (nothing more than) one of the fruits of our labours, a group of highly specific products, and maybe the most technified among the 2 million products that Herogra actually offers. As we are a fertilizer’s formulator, we are highly versatile, therefore, we can easily adapt to every specific and particular formula that our customers may demand from us.

Herogra’s specialities gamut consists of:

BIOSTIMULANTS AND ORGANIC PRODUCTS

PHOSPHITES AND AUTO-DEFENSE INDUCTORS

FLOW FOLIARS (GEL)

SOLID FOLIAR FERTILIZERS

LIQUID FOLIAR FERTILIZERS

COPPERS FLOW

DEFICIENCY CORRECTORS

CALCIUM, SALINITY AND SOIL CORRECTORS

COADJUVANTS

SOLUBLE SOLID FERTILIZERS FOR IRRIGATION PROCEDURES
